Registered Name: **Exotica Iz Imperii Jamper At Masajack**
Registration Number: **AW0905626**

This dog is CLEAR of Late Onset Ataxia

Authentication code: **AC3640205**

Explanation of terms:

These dogs have two normal copies of DNA and are likely to be clear of LOA. The results of our research suggest that there may be other causes of ataxia in the breed so we cannot exclude the formal possibility that clear dogs could develop a genetically different form of ataxia due to other mutations that are not detected by this test.
